## WE'RE FOR AMERICA@AMERICANS!

The L. and N. has placed an order for 250 freight cars. Thus does the American mechanic find employment since the election of McKinley.

AMERICAN stocks are on a boom in London as a result of McKinley's election. Had Bryan been elected the bottom would have fallen out.

The Pioneer Drill Company of Harrison, O., will run full force. Thus do the Shops open their doors for American workmen since the election of McKinley.

The Addyson Pipe and Steel Works are preparing to open up in a few days at their big plant in Newport. Thus do the Mills open their doors for American workmen since the election of McKinley.

The Burgess Iron Works at Portsmouth, which has been working a short time, announces that it will employ a full force immediately. Thus do the Mills open to American workmen since the election of McKinley.

The Russell & Morgan Plant of the United States Printing Company, Cincinnati, will run full capacity to get out a tremendous mass of conditional orders. Thus do the wheels go round since the election of McKinley.

Mr. Bryan after his nomination made 592 speeches in 477 towns and cities of 27 states, and traveled 18,831 miles;—and the queer thing about it all is that nearly every state in which he spoke gave McKinley a big majority.

The Columbus Buggy Company which was forced to assign some weeks ago on account of the hard times, made arrangements Wednesday with its creditors and work will be resumed at once. This establishment employs over 700 hands. Thus do the Shops open for American workmen since the election of McKinley.

The Pittsburgh Packet Company has closed a contract at Cincinnati for building a new \$65,000 steamboat. Plans were made and the contract drawn up two months ago. The closing of it was conditional upon the result of this election. Thus do the Shipyards open to American workmen since the election of McKinley.

All over the state voters put their X mark in the square opposite the name of the first Elector on the list, instead of putting it right under the party device. By admitting these ballots to the count, 18 votes were added to Bryan in Mason county and 17 were added in Clark county. About the only way to "educate" some people is to do it with a club.

As a result of the election of William McKinley, the Bluegrass Tobacco Company of Lexington, whose factory has been closed for three months, has begun operations with fifty hands, and will put on twenty-five more. Orders have already begun coming in, and the Manager is preparing for brisk trade. Thus do the Factories open for American workmen since the election of McKinley.

The Flemingsburg Times-Democrat says the wallet lost by Captain J. H. Myers, was found Sunday at J. W. Lee of Lee & Son's Drug Store, and given to Myers a week before by Captain Myers. It had gotten behind the back stay of the top and behind the back rest, and was all right as to its contents. The buggy had been hired out and driven almost every day for the week and it was strange it was not sooner found.

The old story of Prometheus is a parable. Prometheus was on terms of intimacy with the gods. From them he stole fire, and gave it to man. For this sin he was condemned to the rock of Mount Caucasus and visited with tortures upon him. They only ate his liver. This grew as fast as it was picked away. And this was going on to the beginning of time.

This modern interpretation of the parable. There is no cocking without fire. In cooking and eating the mischief lies. The stomach is overfed, the bowels become sluggish, they cannot digest the food we have eaten.

The impurities back up on the liver. Then comes the culprits—the torments of a diseased liver. Dr. Pierce's Golden Medical Discovery and its substitutes are to the values of dyspepsia and its kind. Greatest relief from the need of suffering from dyspepsia is the use of hanging one's self. Sold by all medicine dealers.

## KILLED IN LEWIS.

## AN EX-MAYSVILLE MAN HAS TROUBLE.

JO. RYAN NEARLY BEHEADS JERRY SHAW—RYAN HIMSELF MAY NOT RECOVER.

A special to The Enquirer from Vanceburg says Joseph Ryan and Shaw fought a duel with knives Saturday afternoon at Valley, seven miles South of that city.

Shaw was instantly killed, being almost decapitated.

Shaw was in Vanceburg in the morning and left town intoxicated.

On arriving at Valley on his way home he went into Ryan's store and got into a quarrel over the recent election.

Both pulled their knives, and in an instant were slashing each other like demons.

Not until Ryan had received three awful cuts on the face, one of them laying the windpipe bare, and almost exhausted from the loss of blood, did he do any damage to his adversary.

Then with a desperate lunge with his knife, Ryan, he barely severed Shaw's head from his body.

Ryan was taken to Vanceburg and his wounds dressed.

His recovery is doubtful.

He is a well known business man, and is prominent in the Democratic party in his county.

Mr. Ryan is a native of this city, a son of the late Mr. Joseph Ryan, the well known blacksmith, and is a brother of Mr. J. F. Ryan the Locksmith of West Second street.

B. K. Lewis of Lexington has sold to T. H. Ryan of Cincinnati the three-year-old colt, Sir Dilke, by Imp. Pirat of Pensacola out of Dilsey, for \$5,000.

The Ashland Coal and Iron Railway Company will immediately begin the erection of a large plant of coke ovens near their recently opened coal mine near the city.

The Darlington, W. Va., railroad will give up their last car of coal for rheumatism and found it to be all that is claimed for it. I believe it to be the best preparation for rheumatism and deep seated muscular pains on the market and cheerfully recommend it to the public.

## GOOD CATCH.

Check Swindlers in New York, Michigan, Ohio and Indiana.

A New Method of Raising the Wind by an Organized Gang.

They Were on the Road as Commercial Travellers—Men of the Gang Now Confess While in Prison Broke Jail and Made His Escape.

New York, Nov. 9.—After many weeks of patient work the police of this city, assisted by the Chicago police and the Pinkerton agency, have succeeded in bagging a remarkable gang of check and draft swindlers. For days the members of the gang had roamed about the west and east, leaving forged drafts behind them in each place they visited.

Their method, according to the police, was entirely new. They were a sort which proved successful every time it was tried. Of the four members of the gang, three are now in custody, one in Michigan, one in Chicago and one in this city.

The fourth, the J. B. Lyons, or Harry Lyons, who escaped from the Goshen (N. Y.) jail in the latter part of September, and is still at liberty. Lyons or Rhodes, is better known as Sam Smith. The other men are Walter E. Peters, Willis Herbert Conard and William Thomas. The last to be nabbed was Peters.

The gang got together last June and planned a general scheme of swindles in small hotelkeepers throughout the country. The men met in Chicago and made their plans. Peters is an expert lithographer, and his work was to print the necessary drafts to forge checks and drafts. Conard and Smith got rid of the paper. It was resolved from the first that no forged checks would be used unless it became absolutely necessary to negotiate in order to get sufficient funds to get out of some temporary difficulty.

Conard and Smith, it was agreed, should go out on the road as commercial travellers. Peters was to stay in Chicago and draft when convenient, as fast as they could get rid of them. In his letters he would pose as their employers, wording each epithet in a business-like way and signing the name of some well known firm to each one. The police believe that they have a copy of these letters. They illustrate better than anything else why the men were so successful. In these Peters insists on getting the necessary information in a very敷衍 manner. He generally orders them to take a new route, mentions some firm in the next town which he wants them to be sure and visits, says that he expects an order and will get out of some temporarily closed drafts.

Altogether the usual letter is a business-like one and apt to impress a hotel clerk.

The early travels of the alleged commercial travellers, however, were through Ohio and Indiana, and every place they went they passed their drafts on merchants, hotel-keepers and even bankers. Peters kept sending out the drafts as fast as Conard and Smith could get rid of them. Each man had equipped himself with a layout of cigar samples, the better to carry out their scheme, and they spent large amounts of money wherever they were. In each place visited they changed as much as possible their personality.

Michigan was visited when Ohio and Indiana had become hot for the pair. In Michigan the checks and drafts were worked, and there, as far as can be learned, 15 drafts for amounts varying from \$100 to \$500 were cashed. In Ohio and Indiana 30 of the drafts were passed.

The police of the entire country were put on the trail of the swindlers.

The amount of money secured is not known, but bankers estimate it at \$75,000.

KENTUCKY FOR MCKINLEY.

Chairman Roberts says the State goes Republican by about 444 Republicans.

LOUISVILLE, Ky., Nov. 9.—The republican state organization will hold its annual meeting Monday evening at the Hotel Louisville.

Chairman Sam Roberts issued his final bulletin Sunday afternoon. It is as follows:

Practically complete official returns give McKinley 444,000 popularity in Kentucky. unofficial advisories indicating that the four missing counties will increase rather than decrease these figures. The republicans elect four members of congress and a judge of the eighth circuit for the term of an eight year term and by the filling of vacancies have secured a majority of two in the general assembly on joint ballot, which insures the election of a republican senator to Senator Bladensburg. The total vote of the state will approximate \$25,000,000, with an increase of 70,000 over last year's vote and 25,000 more than the highest estimated vote in the election. The republicans voted 40,000 more than Bradley's vote a year ago, which was 17,000 higher than ever before cast in a presidential election. The democratic vote was 25,000 higher. These figures show some idea of the intensity of the political struggle through which Kentucky has just passed.

(Signed) SAM J. ROBERTS, Chairman.

Mr. Roberts sent congratulatory telegram to Mrs. McKinley, and to Miss Hanna giving their views as to the final result. When asked about the probability of the democratic getting one elector, Mr. Roberts said that this could not be ascertained until the official count was made by the state canvassing board. Gov. Bradley, as a member of the state canvassing board, has sent the following telegram to Mr. Scott, of Louisville:

"Kentucky has certainly gone for McKinley as far as can be told."

(Signed) W. O. BRADLEY.

To the New England Journalist: Your recent figures on the result of the election in Kentucky and McKinley's plurality stands 490 with six counties to be heard from officially. Whether or not the discrepancy between the popular and electoral vote of the state ticket will remain in the choice of one Bryan elector and 15 McKinley electors can not be known until the state canvassing board foots up the vote for each elector. The democratic leaders still claim the state, but none of them was in town Sunday.

A CORRESPONDENCE

Of a Most Startling Character Between President Cleveland and the Spanish

NEW YORK, Nov. 9.—A Journal special from Washington says information of the most startling character regarding a coming revolution in Cuba, between Cleveland and the Spanish minister, Senor Dupuy de Lome, concerning the future course of this country toward Cuba, was current here Sunday. It is said that a few days ago Cleveland received a secret message from the Spanish minister as sufficient to cause him to delay the execution of any action until the expiration of the time named and that by the same token he would feel justified in recommending recognition of the Cuban republic should the Spanish government fail to restore peace within two months.

In the opinion of those who know the Spanish minister this move on his part is regarded as a clever political attempt to discredit and to bring about the president based on the report that Consul General Lee is believed to be about to make and to secure a postponement of action by the executive until the winter campaign shall have been inaugurated.

#### His LAST POKER GAME.

*Lawyer Refused to Winning and Decided to Play No More.*

A party of five gentlemen had been in the habit of meeting once a week to play poker. They were each of them ordinarily successful in his profession, and were respected in their business and personal relations. The incidents given below, took place at their last meeting for the purpose of an evening's enjoyment of their favorite game, dramatic as it may seem is strictly true.

It is not easy to give the reasons for the fascinations or the excitements of poker playing. Suffice it to say that on the night we speak of, overthrown by stimulating circumstances, each of the players, because of what seemed to be the strength of his own hand, increased the amount of his bet over that which had previously been made.

One of the five men was a lawyer who had many important clients depending upon him. He was the most imperturbable of the players, greatly addicted to the game, and, as it happened in this instance, held the highest cards in his hands. He knew that he was a sure winner, for no other combination could possibly beat him.

The excitement became extreme, and the betting had risen from hundreds of dollars to \$1,000. The lawyer for a moment changed color, then put his hand into his pocket, took out a roll of bills, and counting from it a thousand dollars, laid them in the middle of the table, thus covering the last bet. He then said:

"I call you," which is the technical way of bringing the betting to an end. As he did so he turned pale, and his hand shook as he showed his winning cards. The doctor of the party thought that he was going to faint from the excitement of winning such an unusual amount, and sprang to assist him, but the lawyer waved him back and bent his head, trying to control himself. His friends felt that his emotion was due to some unusual cause. In silence they looked on while he did a strange thing.

First he took ten one-hundred-dollar bills from the head of money that he had won and, folding them together, he put them with the roll he had taken from his pocket.

When this was done he drew a long breath—almost a gasp of relief. Then he carefully separated his own original money from the remainder and pushed the rest away, looking at it steadily for a second or two without speaking. At length he said, raising his hand and reciting a solemn oath—we quote his words exactly:

"I am done with poker. Loving the game as much as I do, I give it up from this moment forever. I have stepped across the border line of dishonor tonight. The money I have just put back into my pocket was given me as a client to be paid out this morning, and if I had lost it I could not immediately have replaced it. I hid it in my possession simply because I had not had the opportunity to deposit it in the bank, and in the excitement of the game I forgot that it was not my own. The fascination that would make me do a thing like that is one that I dare not risk again. I cannot touch the money that I won with it, for it was not my own."

His friends took up their money and bowed in silence. Their astonishment and respect were too great for words. The lawyer rose and left the room, never to return to it.

He had unconsciously given a striking illustration of the fact that the essence of character, which we call soul, may be lost or saved at the moment when one comes to the border line between an honest and a dishonest act.

## POST OFFICES.

Report of First Assistant Postmaster General Jones.

Number of Presidential Post Offices 8,654, Salaries Being \$6,203,900.

Postal Free Delivery Being Tested in About Thirty States—Negotiations Pending for an Exchange of Money Orders With Mexico—Year's Estimates.

WASHINGTON, Nov. 9.—First Assistant Postmaster General Frank H. Jones, in his annual report for the fiscal year ending June 30, 1890, states that there has during the time been a saving of \$3,073,983, and also shows an improvement in the service of delivery of the volume of mail matter.

The number of presidential post offices is 3,054, the salaries of the postmasters being \$6,203,900, and the total gross receipts from these offices were \$9,965,054.

Mr. Jones recommends that \$17,000,000 be appropriated to compensate postmasters for the next fiscal year. He makes only general recommendations for clerks, a considerable decrease in proportion to the increase of clerks to be employed. He recommends that \$75,000 be appropriated for the rental and purchase of canceling machines. He thinks \$15,000 sufficient sum to cover the expenses of exchanges, and advocates the use of unclaimed letters, and the adoption of the bulletin board system in this matter. He recommends that teleinspectors be assigned to offices in the west, and that a salary and allowance branch of the service be established in 24 cities during the year and there are now but 63 entitled to it, but on account of the expense the remainder is to be discontinued. The postal free delivery in towns and villages has shown a reduction in gross receipts in a majority of offices. By November 1 next rural free delivery will be tested in 1,000 offices, and will be followed by a reduction of dismissals of letter carriers, which evidences the high standard of discipline. An estimated expenditure of \$13,329,500 was made on account of rural free delivery system for the fiscal year 1890-91. Negotiations are now pending for an exchange of money orders with Mexico.

Mr. Jones recommends that a penalty be prescribed for the unlawful use of the names of member post offices, and suggests \$300 fine in each case. He said the law was disregarded during the campaign just closed. He asks legislation to do away with private post office boxes.
